Phenom 300E

COCKPIT CALL

In case you want to attract the crew's attention, please press the **Cockpit call** button located on the control panel under the wooden cover next to the table at the master seat.

COCKPIT CALL

ADJUSTMENT OF THE SEATS

Seat has 2 levers, which allow different adjustment:

- **Backrest** adjustment (rear lever on the inner side of the seat base)
- **Swivel** seat (front lever on the inner side of the seat base)
- **Armrest** (pull and fold down)

Make sure the adjustment levers are pulled up fully within their travel to ensure proper function.

CABIN TEMPERATURE

LIGHTING CONTROL IN THE CABIN

1. Passengers on the master seats can control all lights, passengers at other seats can control the reading and the table lights.
2. Tap on the **Lights button** in the main menu
3. Select which light in the cabin you want to turn **ON / OFF**:
 - Cabin lights (upwash, downwash)
 - Reading lights
 - Table lights

DISPLAY

SOCKETS LOCATION

Each seat is equipped with power unit located in the lower part of the cabin between seats. **The sockets are compatible with EU/US/UK plugs.** These ports have been designed to provide electrical power for connection of laptops, cell chargers or other PED (Portable Equipment Devices). Power system supplies 110 V AC / 60 Hz electrical power, up to 150 W per port.

SOCKET

DISPLAYS

Pop the screen out from the ceiling using the button at the bottom edge of the screen, carefully position the screen for optimal viewing angle. Stow back for landing by gently pushing the screen back in.

OVERHEAD PANEL

Turn the cabin air outlets to adjust direction of conditioned air (air blows in the direction of the little Embraer logo). Waving your hand in front of the panel reveals two touch sensitive buttons to control the lights for the given seat (reading lights and the table light), these lights can also be controlled through the screen for the entire cabin.

GALLEY & SNACKS

Do not hesitate to help yourselves with snacks and soft drinks. Wine, catering and hot drinks will be served by the cabin crew.

ALCOHOLIC BEVERAGES

NUTS, JUICE

HOT WATER, TEA, SUGAR

CONNECT YOUR DEVICE WITH SPEAKERS

To connect your device with the aircraft speakers, use bluetooth, make sure it is on in the cabin settings (Connect, Bluetooth Connection) and in your device settings, connect to the „My Phenom“ network. Play music on the device and in the cabin settings select „Audio“ on the right side and select „Speaker“ as an output and adjust volume accordingly.
