CONNECT YOUR DEVICE WITH CABIN DISPLAYS AND SPEAKERS

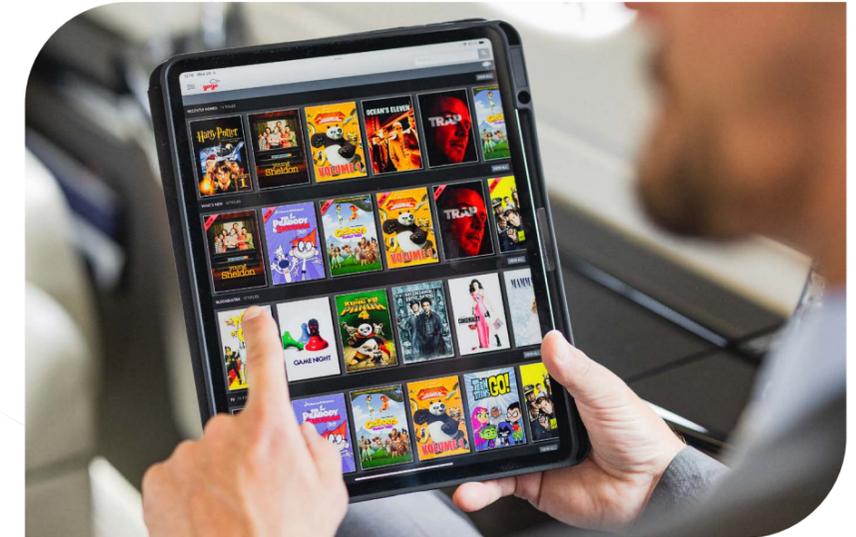

To connect your device with cabin screens and speakers use cable for USB port, HDMI port or jacks. Also you can connect to **AirPlay** with your iPhone with screen mirroring function. Open on your iPhone Control Centre and tap on screen mirroring. Select Cabin and use the unique code from cabin displays. Cables to connect are available on board – please contact the air hostess.

FREE USAGE OF WI-FI

You can use free high-speed internet during your flight:

- Wi-Fi network: **55020222**
- Password: **55020222**

SOCKETS LOCATION

- Each seat is equipped with power unit located in the lower part of the cabin between seats. The sockets are compatible with EU/US/UK plugs.
- These ports have been designed to provide electrical power for connection of laptops, cell chargers or other PED (Portable Equipment Devices). Power system supplies 110 V AC / 60 Hz electrical power, up to 150 W per port.
